Testimonial for Puneet Sharma, Director AGV Alfab

I have know Puneet Sharma for over Five year and proud to have sponsored him to this chapter. We have been using AGV Alfab Aluminum glazing and window in most of our prestigious project all over the country.

Their resent power-coated wood-finish aluminum sections is the brainwave of puneet and the perfect replacement and solution for conventional wooden frame. These are totally sound proof, dust and water proof and totally maintenance free. I had recommended AGV Alfab at Kashmir for its harsh climate and J&K tourism are now using them and have decided to use then for all their future project in the state

Puneet is a visionary and has taken AGV to great heights and I am sure he had AGV Alfab will be a huge success all over the country.

I have found a reliable partner in Puneet Sharma and wish him all success in life.
